(54) Title: FLUORINE CELL

(57) Abstract: An arrangement for installing and sealing an anode within a fluorine generating electrolytic cell is described, the arrangement comprising: an anode connection member, said anode connection member (32) passing through an aperture (70) in a skirt wall (20) and being in electrical connection with a skirt wall closure member (72) wherein the skirt wall closure member is sealingly engaged with said skirt wall and is electrically insulated therefrom.
